This years event contained a new ingredient - rain. run of 10 years good weather finally gave up and brought new problems for some runners and organisers alike. The enforced detour around the water works also caused problems and would affect times by up to a minute.

Congratulations to 17 year old William Styan who came through from 5th at the Pike, cutting through his rivals with a hair raising descent. Alex Smith's intention of gaining a hat trick was well and truly demolished along with Greg Hull's aspirations for first place.

Thanks go to all helpers and especially Dave Weatherhead for his soggy summit recording.

The BBC will screen its recording of the race in a series due to commence on 'Look North' on Wednesday 31st July. The race will most likely be shown Wed 14th Aug.

Lost Property: Pentax camera pouch.
