

## **Weets Race**

Registration for this race is in Letcliffe Park (Grid Ref 879458), where you will find limited parking, so please car share if possible. Entry is on the day, although you can download an entry form to complete at home, which will save time on the day.

The race does not start in the park. If you leave the park and turn left into Manchester Road, the start is a short way up the road on your right in Lister Well Road. The first part of the race follows this road before turning right into a field and following a footpath that leads to a wall. The footpath continues alongside the wall until it reaches the lane at Higher View. You turn right down this lane until it joins Folly Lane, where you turn left and start heading up towards the summit. The lane eventually gives way to open moorland the the summit trig point of Weets. Here, you turn right and make a sharp descent before ascending to the summit of a nearby un-named hill. You again turn right down the valley before turning right again and ascending back up the hill to rejoin the path where you recently made your ascent to the summit. It is then a matter of following your original tracks back to the starting point.
